SOME OF THE AUCTION PIECES

Artwork by Jyiro Title: Look before you chop.

A depiction of Minnamurra rainforest painted on a recycled saw from the local tip. This is protected land, home to various flora and fauna. A place that lives free from devastation and destruction/ A true paradise. Acting like a mirror to show what is being lost through deforestation and maybe think twice before we play any part in such harmful activities in the future

Artwork by Dan.

Harley Davidson key holder/ shelf
Hand crafted from recycled wood materials and spark plugs.
Perfect for that unusual piece for the mancave.
